Work Experience

Projects 2024

Carbon Emission Calculator Web Application

- Developed a web application to calculate carbon emissions from university student transport services.
- Tools used: PHP, HTML, CSS, JavaScript
- Applied logic testing and input validation during development
- Project supervised by Prince of Songkla University, Surat Thani Campus

Objective

- Seeking an internship opportunity in the field of Quality Assurance or Software Testing to gain hands-on experience and contribute to a development team using my IT background and strong attention to detail.

Career Objective

“ As a passionate IT student, I am eager to apply my skills and gain practical experience. I believe my enthusiasm, adaptability, and strong work ethic will allow me to contribute effectively while growing professionally in the QA and software testing field. ”
